COLTRANE & SAMBEAT – SPECIAL FEATURES

Ergonomically designed its shape and padding disposition have been studied to ensure adaptability to each individual neck shape.

Ensures adaptability and **provides optimal weight** distribution, keeping the vertebral area free.

Padded with a specially developed latex to reduce pressure and stress on the neck.

One size fits all. Perfect to fit any soprano, alto or tenor saxophone and all Clarinets.

Length easily adjustable by yourself by simply sliding the adjuster up or down, even while playing.

Includes two separated connectors for various thumb-rest fits for any Clarinet.

The 6-hole length **adjuster is specially designed** to avoid affecting the carotid artery and ensures secure positioning with zero risk of slipping.

Easy-to-use **safety ABS swivel snap** has been proven to withstand 26+ Kg (57+ pounds) of sustained force.

PARKER & WILLIAMS – SPECIAL FEATURES

One size fits all. Easily adjustable to fit any soprano, alto or tenor saxophone and all Clarinets.

The microfiber coating ensures a **soft feel and minimal sweat absorption.**

Padded with latex for a **comfortable feeling.**

Includes two separated connectors for various thumb-rest fits for any Clarinet.

The 6-hole length adjuster in the Parker model is specially designed to avoid affecting the carotid artery.

The 5-hole length adjuster in the Williams model it's a easy option for who prefers. Both models ensures secure positioning with zero risk of slipping.

Easy-to-use **safety ABS swivel snap** is made of strong ABS plastic, has been proven to withstand 26+ Kg (57+ pounds) of sustained force.

The length of the strap can be easily adjusted by yourself to suit any instrument by simply shortening the knot on the tabs.
